ABOUT ME:

I am an engineer with a background in computer science and econometrics, and a passion for scuba diving.
I also have experience in server management.

Changes in the automotive market have prompted me to reconsider my career path and contemplate a switch to a field that aligns more with my interests.

In my case, it's not so much about a complete career change towards the broader IT field but rather a return to the path I initially chose.

Choosing the Full Stack MERN path allows me to develop my programming skills and prepare for future challenges, drawing on my determination and passion for learning.

IN MY PROJECT USE:

• JavaScript
• React
• MongoDB
• AXIOS
• NodeJs
• ExpressJS
• Bootstrap
• Sass
• CSS
• HTML
• NPM
• JWT

I'M A LEARNING.

• TypeScript
• Redux
• React Native
• AI

EDUCATIONS

Warsaw School of Economics (SGH)
2012 – 2013

Postgraduate Studies for Automotive Managers

Higher School of Management and Finance
2002 – 2006

Faculty of Informatics and Econometrics
Degree: Engineer
Specialization: Networks and Teleinformatics Systems in Management.

Bootcamp Akademia 108
10.2022 – 07.2023

FullStack Developer MERN

09.2023 – present

Course: Master AI

UDEMY

• Bootstrap from Zero to Master - create excellent websites"
• React CRUD Operations with Axios"
• React - Getting Started"
• React Course: Build Modern Web App with React

SELECTED PROJECTS :

CRM

The aim of the project was to create a system for managing broad relationships with current and potential customers. It should enable sales opportunity assessment, facilitate customer service, and analyze performed actions. The quoting module should be scalable and adaptable to the specificities of a given industry (automotive sales).

Stack:
FrontEnd: JavaScript, React, HTML, CSS

Biblioteki: React Router, Multer, React-Table, React-Bootstrap, Axios, JWT, Bcrypt, js-html2pdf, react-to-print, React-hot-toast, JWT

Backend: Node, Express, MongoDB
www.crm.k2webdev.pl

PERSONAL SITE

The goal of the project is to present myself in a more extensive and appealing way than in my CV.

Stack:
FrontEnd: React, HTML, CSS

Liberary: react router, react-bootstrap, react-intersection-observer, react-vertical-timeline-component
